1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elaine Spector on October 21, 2003.

The application has been amended as follows:

IN THE CLAIMS

In claim 1, line 3, "with several" was replaced by --a plurality of--; and line 4, both ",", after "part" and "cavity" after "which" were deleted.

In claim 9, line 3, "several" was replaced by --a plurality of--.

Claim 14 was canceled

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art record fails to teach or suggest the combination of elements in a tool for casting a shaped part for production of a turbine blade or steps in a method for production of a shaped part for a turbine blade, comprising: a plurality of tool blocks assembled to form a cavity for the shaped part into which flowable material can be introduced by means of one or more access apertures, wherein at least one of the tool blocks receives a rotatable or displaceable insert or inset which borders on the cavity with a surface and which can be fixed in different positions and/or orientations with respect to the at least one block, so that different cavity geometries defining an outside contour of the shaped part are formed in the different positions and /or orientations of the insert or of the inset. Therefore, the claimed feature is allowable over the art of record.
